

MANAGEMENT POLICY

CTT Automocion dedicates its activity to:

Manufacture metal parts by cutting, bending, forming, and machining.

Committed to the environment, quality, and competitive improvement, we want to develop and consolidate **CTT Automocion** among the leading companies in the sector, being a reference in the international market to serve customers who demand large series, applying our knowledge and experience.

To achieve this objective, CTT assumes and bases its actions on the following basic principles:

Orientate the entire organisation and strategy towards the customer in order to achieve maximum **SATISFACTION**.

Permanently promote **CONTINUOUS IMPROVEMENT** of processes, activities and the Management System, as a way of achieving **CUSTOMER** satisfaction, the satisfaction of **PEOPLE** and all Stakeholders, and the sustainability of the **COMPANY** thanks to an organisation based on the **PARTICIPATION** of people.

Raise awareness and encourage the active involvement of all staff in the creation of value through **COMMUNICATION** and continuous training as a tool to achieve **ZERO DEFECTS**.

Corporate Social Responsibility is defended by our **VALUES** as a **responsible and sustainable** company that includes commitments such as Anti-bribery, Confidentiality and Respect for the Law and Human Rights, included in the **Conduct Guide for Employees** that is part of the welcome process for each person that integrates **CTT Automocion**.

Comply with the corresponding legal and regulatory **REQUIREMENTS**, as well as the applicable **ENVIRONMENTAL LEGISLATION**.

In order to be coherent with all these principles, **CTT Automocion** has a Management System that establishes and deploys the necessary actions to develop them and improve their efficiency.

The Management of **CTT Automocion** is committed to manage and fully assumes the effort that this requires and does not hesitate to **TEAM up** with all the staff and **LEAD** this project to achieve its objectives.
